Civil Engineering	IELTS 6.5 R 6.0 W 6.0 S 6.0 L 6.0 TOEFL 79	48 Months	USD 65	Yearly USD 21773	January August	STEM Program - Upto 3 Years , Others - 1 Year

Program Description :

Solving problems and providing solutions to society's growing infrastructure needs are what civil engineering technology graduates do best. You'll learn to design bridges and buildings, analyze traffic flow, manage the construction of complex structures, and address environmental issues such as clean drinking water, and more. The civil engineering technology degree provides the practical theory and skills you'll need to analyze and design systems; plan and prepare design and construction documents; utilize software to produce drawings, reports, and quantity estimates; select appropriate engineering materials, and develop cost estimates.

Admission Requirement :

The student must have a Cumulative Grade Point Average of 3.0 and higher from an accredited institution
