Program Description :

The post-degree certificate builds on the skills and knowledge you have already acquired in earning your first degree allowing you to employ them fully in modern data-driven enterprise. As a data analysis student at UFV you will acquire the skills needed to extract reliable information from large data sets. With carefully designed courses taken in both computing and statistics, you will gain the data-base skills you need to house, extract, manipulate and maintain data in the real-world ways in which it arises and you will learn the statistical techniques needed to collect data correctly, assess its quality, analyze it, and present the information effectively to decision makers.

Admission Requirement :

The student should be Information Technology Graduate with 60% and higher in Bachelors Degree
