Program Description :

This course provides an opportunity at master's level for professional engineers to extend in depth and breadth the knowledge and skills gained in their undergraduate studies. The course is an extension of the traditional Master of Engineering. The course follows an integrated approach to professional practice through professional engineering subjects, subjects relating to the major and sub-major, an independent project in at least one field of engineering, and a set of electives. Students who wish to undertake a more substantial research project have the opportunity to transfer to the Master of Engineering (Advanced)

Admission Requirement :

- Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.
- It is a requirement that the bachelor's degree be in engineering and relevant to the applicant's proposed major, with no more than 25 per cent of subjects failed.
