Program Description :

Electrical engineering technology (EET) is a comprehensive five-year, cooperative education (co-op) program that applies the principles of electrical technology to real-world problems. Electrical technologists work in all areas where electrical technology and computers exist. The curriculum provides a foundation of fundamental courses in electrical technology at the lower level, and at the upper level emphasizes the areas of communications, instrumentation, analog and digital controls, microprocessors, microcontrollers, power systems and digital signal processing. Graduates in electrical engineering technology will be able to design and install all types of electrical instrumentation as well as computers and their networks. They will also be able to prepare presentations and write technical document.

Admission Requirement :

• The student must have a Cumulative Grade Point Average of 3.0 and higher with an accredited institution.

General Checklist :

English Language Score Card: TOEFL or IELTS should be send directly to University electronically.

^{*} All the above information must be verified with Institution/Country Website
