Program Description :

The program will provide students with the tools necessary to strategize solutions to complex problems and situations and will develop their competence in the area of planning, sourcing, producing and delivery products and services. The program will prepare students with an existing bachelor's degree in business or engineering to understand and work in the supply chain management industry in Saskatchewan and Canadian public and private enterprise. Students will develop skills and knowledge in fields of procurement, negotiations, leadership, logistics, risk management and information systems. You will apply theory to real-world scenarios in business situations, case studies, group projects and role playing exercises. You will be provided with a mentorship opportunity while completing your capstone project.

Admission Requirement :

Successful completion of Bachelors Degree with 60% and above.

General Checklist :

1. Passport (Bio-data Page)
2. Bachelor all Semesters Mark sheets and Provisional Degree Certificate. (Backlog Mark sheets should be included)
3. High School Grade 10th and Grade 12 mark sheets
4. Resume
5. IELTS score card (if available)
