Computing Security	IELTS 6.5 R 6.0 W 6.0 S 6.0 L 6.0 TOEFL 79	24 Months	USD 65	Yearly USD 21773	January August	STEM Program - Upto 3 Years , Others - 1 Year

Program Description :

There is critical importance to building security and survivability into the hardware and software of computing systems as they are designed and developed, rather than trying to add it on once these systems have been designed, developed, and installed. The MS in computing security gives students an understanding of the technological and ethical roles of computing security in today's society and its importance across the breadth of computing disciplines. This cybersecurity masters enables students to develop a strong theoretical and practical foundation in secure computing, preparing them for leadership positions in the computing security industry, academia, or research careers, or to pursue a more advanced degree in a computing discipline.

Admission Requirement :

- Hold a baccalaureate degree (or equivalent) from an accredited university or college with 3.0 CGPA and higher.
