Program Description :

In the game design and development masters, students explore the entertainment technology landscape as well as other related areas. The program simultaneously covers the breadth of the game design and development landscape through study in topics such as computer graphics, game engines, interactive narrative, and game world design. The program is characterized by a clear focus on development, but also educates developers in the design process. The degree is intended specifically for students who aspire to hold careers within the professional games industry or a related field such as simulation, edutainment or visualization.

Admission Requirement :

- Hold a baccalaureate degree (or equivalent) from an accredited university or college with 3.0 CGPA and higher.
