### **Program Description :**

If you are looking for ways to leverage your engineering or information and communications technology degree to advance your career, consider Saskatchewan Polytechnic's new Project Management post-graduate certificate (PMPGC). The Project Management Institute (PMI) is predicting a 33% increase in project management jobs worldwide and Canada is expected to add an estimated 9,000 project management jobs every year for the next 10 years. These predictions present opportunities for those with the right training and skills. The one-year Project Management post-graduate certificate program provides degree graduates with a strong foundation in essential project management skills. Our curriculum has been developed with input from industry stakeholders, which ensures students receive a relevant, work-focused learning experience.

### **Admission Requirement :**

- Earned bachelors degree in information and communications technology or engineering (applied science) from a recognized university with 60% and above.

### **General Checklist :**

1. Passport (Bio-data Page)
