Career Opportunity: Cybersecurity analyst Data security analyst Cyberdefense solutions sales specialist Cloud portfolio architect IT security specialist Information security analyst

**Program Description :**

The need for cybersecurity expertise is only going to increase as the technological industry continues to evolve and expand. Working professionals and recent graduates can advance their career goals by building on their previous education and experience with a Cybersecurity Post-Diploma Certificate. By focusing on operating system concepts, introductory computer forensics and network protocols, this program will prepare learners to design and implement secure computation solutions. In addition, graduates will enhance their business acumen with stronger communication, technical and problem-solving skills.
