**Program Description :**

Skilled welders are in demand in just about every industry, making it a career with great mobility. Saskatchewan Polytechnic's Welding program provides the foundational knowledge and skills you need to operate welding equipment and perform basic welding operations. Grads are in demand in Saskatchewan's oil and gas, mining, farming, manufacturing and construction sectors. Trade time and academic credit may be available for grads who find employment in the trade and register as apprentices

**Admission Requirement :**

- Successfully completing High School or Graduate Studies from a Recognized Institution.
