Global Supply Chain Management	IELTS 6.5 R 6.0 W 6.0 S 6.0 L 6.0	24 Months	USD 65	Yearly USD 21773	January September	STEM Program - Upto 3 Years , Others - 1 Year

Program Description :

Products and services increasingly rely on a globally integrated supply system and the related technologies that enable the efficient movement of these good and services around the world. In demand are supply chain management professionals who can manage the complex operations that take a product from ideation, sourcing of materials, production, storage and transportation, to purchasing, order fulfillment, distribution, and inventory management. The global supply chain needs to be efficient for companies to remain competitive internationally as they turn raw materials into consumer goods and services and deliver them to consumers. In RIT's supply chain management masters, you will gain a comprehensive understanding of the global supply chain as you gain the analytical, quantitative, and leadership skills needed to design innovative solutions, predict future trends, and become a leader in the fast-moving business landscapes found in the global supply chain system.

Admission Requirement :

- Hold a baccalaureate degree (or US equivalent) from an accredited university or college.
- Recommended minimum cumulative GPA of 3.0 (or equivalent).
