Program Description :

Advanced VFX (Virtual Production) is a full-time, two-year Centre for Entertainment Arts (CEA) program focused on the fundamentals of Visual Effects and the integration of Virtual Production workflows and pipelines. Students will study numerous specializations in VFX, such as modeling, sculpting, texturing/surfacing, lighting, compositing, and FX. The program also integrates Virtual Production workflows into these departments and courses, by introducing Unreal. Unreal and other Virtual Production software and tools are used in the preparation, modification, and filming of VFX assets, in-camera. By replicating real-world fundamentals of Virtual Production and its fast-paced work environment of real-time rendering, artists are trained to be equipped both artistically, and technically in the realm of quick problem solving, teamwork and collaboration.
