Program Description :

Whether at urban power plants or remote mine sites, big machines are working 24/7. These machines are controlled by complex instruments… so complex it takes specialized technologists to look after them. Instrumentation engineering technology is a specific skill set—you need to be comfortable with technology, good at visualizing how systems work and interested in troubleshooting solutions. It’s also a career with diverse job opportunities. Demand is especially high in heavy industry, mining, manufacturing and production. Saskatchewan Polytechnic offers the only accredited instrumentation engineering technology program in Saskatchewan. The three-year diploma is offered full time at Saskatchewan Polytechnic Moose Jaw campus. During five academic semesters and three Co-operative Education work terms.

Admission Requirement :

- Grade 12 with a minimum of 60% in Pre-Calculus 30*
- Physics 30

Note

***Previous Saskatchewan mathematics requirement also accepted:**

- Minimum of 60% in Math B30 and C30
